

SAVE-THE-DATE | IUMAS8

IUMAS8 June 11-16, 2023
Banff, AB Canada

8th Meeting of the International Union of Microbeam Analysis Societies

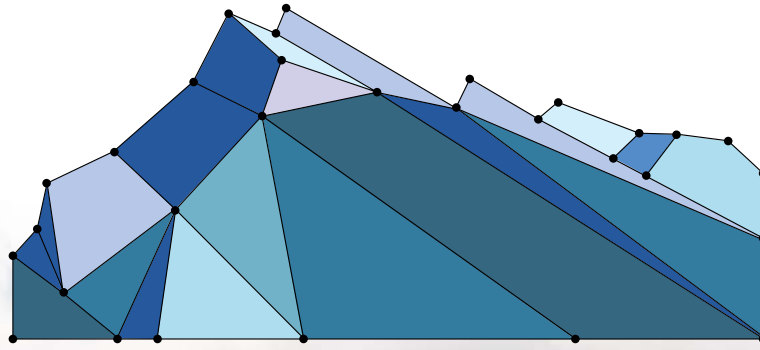

Joint event with
Microscopy Society of Canada/Société de Microscopie du Canada
FIB SEM 15th Annual Meeting

SCIENTIFIC TOPICS | Quantitative EDS / EPMA | Fluorescence imaging in lab / SEM
and synchrotron-based (micro / nano) | Cathodoluminescence | Advanced SEM
techniques | Compositional imaging FIB & Related Techniques / 3D FIB | Spectroscopy &
Spectromicroscopy | TEM / STEM / Analytical EM | Correlative microscopy &
microanalysis | Dynamic & in-situ EM | Data processing / Machine learning | EM in
materials applications

Cryo electron tomography | Single particle applications in biological sciences | Light
microscopy / super resolution | Biological multi-scale imaging | Methods development for
biological samples in EM

SAVE-THE-DATE | IUMAS8

IUMAS8 June 11-16, 2023
Banff, AB Canada

IUMAS was founded in 1994 to promote world-wide cooperation in all aspects of microbeam analysis through the organization of an International Congress on microbeam analysis every three to four years, and by participating in joint committee's with other scientific organizations in matters relevant to microbeam analysis which are better discussed on a world scale.

Don't miss out on the 8th Meeting of the International Union of the Microbeam Analysis Society.

LOCATION: Banff Conference Centre, Banff, Alberta, Canada

CONTACT US: The conference organizers can be contacted via email at ccemreg@mcmaster.ca
